Five Beautiful Homes

Homes

One block west of Hansom park on 33d St. we have just completed five of the best built and best arranged dwellings to be found in the city. We couldn't build them better if we tried. Your close inspection is invited. There are no two alike. Some of the attractive features are: Pressed brick fireplace with built-in bookcases, large rooms, oak finish, dining room is burlapped and has paneled walls and plate rail; each dwelling has three fine, large bedrooms, besides a very complete sleeping porch and fine bathroom with tile floor and best of plumbing fixtures; one bedroom is finished in white enamel with mahogany doors and glass door knobs; basement to each house is full size and has coal and fruit bina, floor drain, hot and cold water faucets and John Hunse Hardware Co.'s guaranteen furnace, also patented coal chute; foundation is pressed brick; one dwelling has a stairway to attic; another has a built-in buffet; another bookcase pedestals; each house having distinctive features of its own. The location is one of the best in the city, being only a block west of Hansom park and the west side car line and two blocks from Windsor school. Fine sycamore trees line 33d St. in front of the houses, making the location doubly attractive; paved street, paving paid. What more can we say? Nothing, except to suggest that if you want a genuine home in every sense of the word that you give us the opportunity to show you these. Reasonable terms offered.

GRAIN AND PRODUCE MARKET

Undertone in Wheat is Somewhat Stronger in the Pit.

ARGENTINA SELLERS PLEASED Corn They Have Shipped to the

United States and Canada Brings Them Better Prices Than They Expected.

They Expected.

OMAHA, Oct 22, 1912.

The undertone in wheat was a stronger one yesterday and while the price gains were only be they failed to reflect the buildin, sentiment existing: they show that all the wheat that is thrown upon the market around the present level will be absorbed by atrong hands. It must be remembered that the liquidation by longs and the short selling was on an enormous scale, and that there is a likelihood of a change coming with the buils in control for a time. In the absence of a brisk cash demand the bears seem to be ready to attack the market every time there are signs of weakness. Cash wheat was its higher.

The holders of corn in Argentina seem to be well pleased with the price realized for the grain sold to the United States and Canada, as an additional cargo was sold via Chivaston, Tax., at 70c. A Chicago house was offered 250,000 bushels late yesterday at 2c over the Chicago May option, sacks included, laid down at either Hoston or Portland, boat to clear by November 26. The corn was offered Susranteed and the sacks are worth 2% gos each. This would mean rivic for this corn, while the price of Chicago corn laid down in New England would be 80c. The likelihood is that the exportable surplus now held on the Argentine reports will be forced upon buyers unless prices are let down too sharply. According to the most recent estimate there are still 14,00,000 bushels of corn to come out of the southern hemisphere. Manufacturers in this country will likely avail themselves of this cheaper corn and it is believed that it will be against the price of our own grain. Some of the larger and keener speculators on the Chicago Board of Trade are numbered among the longs in corn. They believe that a built movement of great importance will be seen before the holldays roll around and this will be prought about by the absence of free sales by the country and on increase in the demand for the cash. There is a big open interest in this grain and as one man put it last night, it would take the shorts

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Oct. 22.—Revival of export demand today strengthened the price of wheat. Accordingly, the market closed steady at an advance of the to he net. Other leading staples, too, all showed a gain; corn, higher to ic; oats, higher to ic, and provisions. The to its.

Lower prices from Liverpool falled to depress Theat, except at the opening. Continued falling off in receipts at Minnespolis and Duluth acted as more than an offset. Reports from India that rain had fallen and from Argentina that crop prospects had become brilliant made only a passing impression. It was not so when word came that exporters had laker as much as a hundred loads of Manitoba. Bullish sentiment spread, especially after Baltimore announced charters for three cargoes to go to France. There were also advices that foreigners were buying flour at Minnespolls.

Primary arrivals of wheat dropped to 1,000,000 bushels less than the total a year ago. This helped to pristent the market from showing any tendency to sag, and so likewise did statements on high authority that farm reserves on November 1 would be only 75,000,000 bushels against 175,000,000 bushels last year.

Although corn dipped in sympathy

bushels against 175,000,000 bushels last year.

Although corn dipped in sympathy with a decline at Liverpool, offerings were quickly absorbed and prices advanced sharply. Country reports were to the effect that feeders were paying higher figures than could be obtained from Chicago cash houses. The bearshad to contend, besides, with the influence of unsettled weather. Big shorts in cats covered freely. Hural offerings were reported light.

Provisions advanced after early weakness, due to lower prices for hogs. There was a general buying movement, which appeared to grow out of the strength of coarse grain.

good season in the morning. The prices paid ranged anywhere from steady to possibly a triffe stronger as compared with yesterday. There were cornfeds in the yards good enough to bring 19.10.

Cows and helfers also were in good demand and trade on that kind of cattle was more active than it had been for a number of days back. The prices paid were steady with yesterday and in some cases sellers thought they secured possibly a little stronger prices for the more desirable kinds.

Stockers and feeders were in moderate supply so far as fresh receipts were concerned, bpt there were a large number of cattle still in the hands of speculators, that had been carried over from Tuesday as the result of the speculative buying was limited and there were not many buyers in from the country. Thus it happened that the market as a whole was very dull and the feeling naturally weak.

values show a decline of 10015c. Trade was not very active at any time, but it was more lively than on previous days of the week, and a fair clearance had been made by a little after to o'clock.

Bulk of the sales were made at \$7.456 7.56, with the long string at \$7.45. The best price paid was \$7.65, just life below yesterday's high price. The market has been going down all week, and the decline for the three days amounts to \$50.

Supplies amounted to about eighty-nine cars, or 5,000 head, making the total for the three days 13.737. This is about 2.000 smaller than jast week, and nearly 2,500 lighter than for the corresponding days last year.

NEW YORK STOCK MARKE'

Becomes Dull After Favorites Fall Off Few Points.

TONE IMPROVES TOWARD LAST

Bull Leaders Not Inclined to Take Aggressive Position in View of Uncertainties of General

NEW YORK, Oct. 21—After the favorits stocks had relapsed a point or so from the high level attained on yesterday's buoyant rise interest in speculation died out today and the market became dull and flat. The tone improved, and part of the early losses was recovered, but in the final hour quotations moved off again.

Buil leaders were not inclined to take an aggressive position, in view of the uncertainties of the general situation. Comparatively little significance was attached to the recent upturn, which apparently signified merely that short selling has been overdone. No considerable volume of outside buying was attracted by the rise.

Steady pressure against steel was effective in holding the market in check. Most of the bearish talk of the day centered about the steel stocks. The steel trade reviews spoke of further reductions in working forces, and it was announced that one of the steel corporations askeddaries had dismissed a large number of employes. Additional price reductions askeddaries had dismissed a large number of employes. Additional price reductions were reported.

The Mexican situation was again brought to the fore by the day's news, which exerted a restraining influence. Stocks selling was another factor in depressing the market. Stocks were unloaded freely for London account on the opening break, chiefly amaigamated and Canadian Pacific.

Declaration of H per cent back dividends on Vulcan Detinning preferred caused a jump of 15% points in the stock. Ameriscen Tobacco was again strong, its gain in the last two days amounting to 15 points. California Petroleum common and preferred were weak, falling to low records.
